WWW.NICNOCNIGERIA.COM

A Nigerian Indigenous Engineering & Technical Services Company

COMPANY OVERVIEW

NICNOC Nigeria Limited is a fully indigenous Nigerian company with proven competence in mechanical, civil, electrical, instrumentation, environmental, and facilities-related services. We deliver reliable, safe, and cost-effective solutions tailored to corporate organizations, institutions, government agencies, and private sector clients across Nigeria.

Our operations are driven by technical excellence, professionalism, and deep understanding of local operating environments.

Over the years, NICNOC has built a reputation for quality service delivery, integrity, and timely project execution across the oil & gas and broader engineering sectors.

OUR MISSION

To provide holistic engineering, procurement, marine, metering, instrumentation, calibration, and logistics support services through proactive client engagement, technical precision, and consistent delivery of high-quality results.

Our philosophy centers on delivering end-to-end solutions across the oil and gas industry and other engineering/technical sectors. This has been achieved through decades of cumulative industry experience and a highly skilled workforce in our core areas of competence.

CORE VALUES

PROFESSIONALISM

INTEGRITY

QUALITY

SAFETY

CUSTOMER FOCUS

NICNOC is supported by a team of seasoned professionals with over 20 years of industry experience in the oil and gas sector. We also maintain strong partnerships with highly skilled indigenous and international technical specialists for the execution of complex and specialized engineering projects.

Our expertise includes installation and maintenance of rotating equipment such as:

Turbine engines, Generators, Operation & Maintenance (O&M) of FPSOs, Industrial rotating machinery systems.

We provide tailored, problem-solving solutions across engineering, procurement, construction, maintenance, and logistics support services.

THE
TEAM

AREA OF SPECIALTY

MECHANICAL ENGINEERING

- Engineering design and system modification
- Pipeline and pressure vessel installation & maintenance
- Structural design, fabrication, and service platform installation
- Machine installation and maintenance
- Supply of maintenance materials and spare parts
- Repairs and precision calibration
- Procurement services
- Pipeline online leak repair using thermoplastic resin technology

ENVIRONMENTAL ENGINEERING & MANAGEMENT

- Oil spill control, containment, and cleanup
- Oil spill recovery and bioremediation management
- Wastewater and sludge management
- Shoreline reclamation and protection
- Erosion control systems
- Industrial and community waste management solutions

ELECTRICAL ENGINEERING / INSTRUMENTATION

General electrical design, installation, and maintenance
 Security and perimeter lighting systems
 Procurement, installation, and maintenance of control panels and consoles
 Rural and municipal electrification projects
 Pressure vessel inspections, PSV testing, proofer loops, and tank calibration
 Tubing installation and instrumentation panel design
 Procurement of electrical components and accessories

LOGISTIC SUPPORT SERVICES

Security support vessels
 Marine barges and vessels
 Haulage and heavy-duty transportation services

CIVIL CONSTRUCTION

Construction of concrete and asphalt roads
 Bond walls, drainages, and railway sleepers
 Design, construction, and maintenance of concrete jetties
 Residential and office accommodation development
 Steel sheet and concrete piling for shoreline protection

METERING, MEASUREMENT AND CALIBRATION

Design, fabrication, and installation of Positive Displacement (P.D.) and Turbine meters with adjoining spools

Meter calibration and verification
 Provision of mooring personnel for tanker operations
 Weight and volume measurement services

PROCUREMENT & SUPPLY

We supply a wide range of technical and industrial materials, including:

Petroleum products
 Oilfield tools and engineering equipment
 Electrical accessories
 Pipeline tools, pipes, pumps, and steel structures
 Valves, wellheads, tubes, and meters
 Emergency lighting systems
 Safety equipment
 Industrial chemicals
 Spare parts for turbines and generators

EQUIPMENTS SALE / MAINTENANCE

Procurement, installation, and maintenance of rotating equipment including turbine engines and generators

Diesel-powered engines
 Supply of turbine engine and generator spare parts
 Procurement and installation of turbine meters

INDIGENOUS TECHNICAL PARTNERS

HOMERIC

Supply of Valves

ThistleBond

Pipe line leak repair and
reinforcement

ADSET MATERIALS (china)

Pipe line leak repair and
reinforcement

CONSHOR SERVICES

Auto flex /Auto gard – Semiflex
pump couplings and seals.

Magna Drive

Why NICNOC Nigeria Limited

- Indigenous expertise with international technical partnerships
- Over two decades of industry experience
- Proven track record in oil & gas and infrastructure sectors
- Strong safety and compliance culture
- Timely project execution
- Cost-effective and technically sound solutions

MODIFICATION OF GUN BARREL AT NAOC BRASS TERMINAL

NAOC Brass terminal gun barrel

Work in progress on the gun barrel

Pictures of 10" & 12" Production Line Replacement at AENR Agbara Platform

Delivery of 10" Sch. 80 & 12" Sch. 40 Pipes at Agbara Platform

COGNATE EXPERIENCE

LIST OF JOBS EXECUTED	CLIENT	Completion Status %	Year	REFERENCE CONTACT PERSON
Maintenance and replacement of Agbara meter bank auto sampling unit.	Agip Energy and Natural Resources Ltd. (AENR)	100%	2003	Mr. Bolanle Afolabi.
Design, Fabrication and installation of Brass export meter bank metering system. NAOC Brass Crude Oil Export Terminal	MAKON ENGINEERING	100%	2003	Emeka Nwabudike. / Augustine Egwuatu (NAOC REP.)
Fabrication and Piling Installation of offshore service platform Jetty extension following approved design by NAOC at Obama Flow Station	NAOC / Index Brooks	100%	2009	Eng Nwachukwu

COGNATE EXPERIENCE

Maintenance of service valves and Vessels at AENR Agbara Platform	Sublet Wacco Tech	100%	2009	Eng. Happy Abali
10'' and 12'' production line modification at AENR Agbara platform	Sublet Wacco Tech	100%	2009	Eng. Happy Abali
Design and Fabrication of sand Traps for production line at AENR Agbara Platform	AENR	100%	2010	Engr Adekanye, Engr. Bajah
Rehabilitation of Matsui Boiler at (NPDC FPSO Mistras)	NPDC	100%	2011	Eng Upaka
Procurement and Replacement of 36'' Ball valve +Pneumatic Actuator on sea line at NPDC Okpoho production platform	NPDC	100%	2011	Engr Kabiru.
Procurement and supply of pressure valves for AENR Agbara Platform	AENR	100%	2011	Engr. Bajah

COGNATE EXPERIENCE

Design and Fabrication of Cross over flange	AENR	100%	2011	Engr Iboyi Monday
Modification of Spools, Flanges and Installation of 10'' x 150# Turbine Meters and External Coating of meter Bank at NAOC Brass	Sublet By Flow Line Energy	100%	2011	Emeka Nwadubuike
Design, Fabrication and installation of NAOC brass Terminal Tank farm booster pumps shelter	Sublet By Servon Nig Limited	100%	2012	Emeka Nwadubuike
Design and Fabrication of sand Traps for production line at AENR Agbara Platform	AENR	100%	2013	Engr. Lateef Abiodun,
Supply of Auto flex Couplings	AENR	100%	2013	Engr Ad-ekanye
Supply of Workshop Materials for Agbara	AENR	100%	2013	Steve Izontimi

COGNATE EXPERIENCE

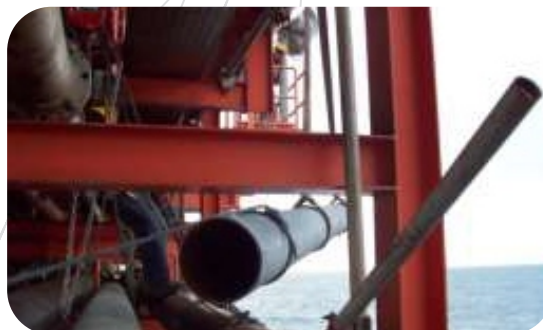

Design and Fabrication of Pract oil Tank Farm at Flour Mills Apapa Lagos	Pract Oil and Gas Limited	100%	2014	Engr Toye Ariyo
Remediation of OB 40 & OB 68/69 Impacted site	TEPNG	100%	2014	Engr Igwe
Shutdown Maintenance of AENR Agbara Platform	AENR	100%	2015	Mr Nnamdi Oriawu
Remediation of oil impacted sites along 8" Obama Flowline at Epebu	NAOC	100%	2015	Engr. Dambo
10" and 8" production line replacement at AENR Agbara platform	AENR	100%	2015	Mr Nnamdi Oriawu
Design, Fabrication and Installation of wellhead sand collectors	AENR	100%	2015	Mrs. Chioma Amaechi

COGNATE EXPERIENCE

Construction of 800meter Concrete Road and Drains at Seplat Amukpe Facility	Obax World Wide Ltd NPDC	100%	2016	Mr Wale Amusa
Rehabilitation of Corroded Section in the Engine Room fourth and Bottom Deck level of the Hull in FPSO Mystras	GENESIS TECH COMPANY	100%	2018	Mr Obiora Orazulike
Shut Down Process of FPSO Mystras Water outlet Spools change out, Mechanical cleaning of associated Piping, De-sanding/Cleaning of 5no Pressure Vessels	NPDC/NJP	100%	2020	Engr. George Ohilebo
NPDC OML 111 EPF debottlenecking and Enhancement Project Oredo	Obax World Wide Ltd NPDC	100 %	2022	Mr Walle Amusa

MODIFICATION OF GUN BARREL AT NAOC BRASS TERMINAL

Fabrication of Pipes, Flanges and Elbows

Installation of Pipes Alongside Existing Pipes

MODIFICATION OF GUN BARREL AT NAOC BRASS TERMINAL

Taking Delivery of Pipes from the Deck

Welding in Progress

Bevelling of Joints

Fabrication of Saddle for Pipes

Welding in Progress (Tie in Joints)

HP/LP SEPERATOR BYE-PASS NAOC FLOW STATION - OSHIE

CUT OUT SECTION OF 12INCH LINE OF HP//LP SEPERATOR

INSTALLATION OF 12 INCH BALL VALVE ON 12 INCH LINE

INSTALLED 12" X 6" TEE

INSTALLED 12 X 6 TEE REDUCED TO 4,' BALL VALVE AND LINE

Pilling 18" Coated pipes, Installation of beams and Grating at NAOC OBAMA flow platform

STRUCTURAL REPAIR PHASE II AT NAOC CLOUGH CREEK FLOW

REHABILITATION OF MITSU BOILER ON BOARD FPSO MYSTRAS (NPDC)

CORROSION CONTROL AT AENR AGBARA PLAT FORM

Grit Blasting of Floor Plates

Painting Process

CONSTRUCTION OF 20,000 BARREL CAPACITY TANK NAOC OGBIENBIRI FLOWSTATION

CONSTRUCTION OF 1.2KM CONCRETE ROAD AT SEPLAT AMUKPE FACILITY

**SHUT DOWN PROCESS OF FPSO MYSTRAS-
WATER OUTLET SPOOLS CHANGE OUT, MECHANICAL CLEANING OF ASSOCIATED PIPING,
DE-SANDING/CLEANING OF 5NO PRESSURE VESSELS**
